

PowerTeacher Pro Tutorial Instructions

Grades 6 - 12

PowerTeacher

This course is intended for teachers and instructional administrators. Learn how to use PowerTeacher to take attendance, submit lunch counts, review student information and grades, use teacher support tools, run reports, and launch PowerTeacher Gradebook.

PowerTeacher Pro Part 1: Setup, Assignments, and Grading

PowerSchool's new gradebook, PowerTeacher Pro, includes robust tools for managing the classroom, including features that support both standards-based and traditional grading. In this course, teachers will learn how to access PowerTeacher Pro, add a class description, and set up gradebook display preferences. Teachers will also learn how to work with categories, assignments, scoring, and final grades.

Online training is administered through the PowerSource platform. PowerSource is a Pearson School Systems site with documents, discussions and tutorials for you to use. The above Distance Learning courses need to be completed prior to using PowerTeacher.
